EXPERIENCE

EZTRACKR | CO-FOUNDER

Apr 2023 - Present | Chrome extension (eztrackr.app)

- Lead the development of a job search organizer **Chrome extension and platform**, streamlining the application process for improved efficiency and organization
- Implemented various features like **authentication from platform, parsing job details** from various websites, eliminating the need for manual data entry, and saving users significant time and effort
- Leveraged **Browser APIs like DOM, Storage, Tabs, Messaging, and Runtime** to create seamless and user-friendly features
- **200+ downloads** of Chrome extension and **60 weekly active users** on platform since conception 3 months ago
- Technologies and tools used: **React, Tailwind, Laravel, Firebase, Digital Ocean**

HALEO CLINIC | SOFTWARE DEVELOPER

Nov 2020 - Present | Remote

- Full stack developer for mobile and web applications working closely with **Design, QA, and the Product team** incorporating **new features, animations, analytics and improving user experience**
- Developed new features for the therapist-led app such as notifications setup flow, notifications control center, and screener in **Ionic Angular** that increased screener completion rate by **80%**
- End-to-end development on The Good Sleep app, an **automated 35-day** therapy program designed by therapists, including key UI components, and converting therapist-provided **excel sheets into functional code**
- Utilized technologies such as **Ionic, Angular, Vue, Laravel, MySQL, TailWind, Medstack**

DELOITTE | SOFTWARE DEVELOPER

Jan 2020 - April 2020 | Kitchener, ON

- Developed an iOS application for Deloitte practitioners to **capture data-driven insights** and create a feedback system to support future bids
- **Improved analysis of business outcomes by 70%** through the use of a smoother UI, cleaner visual metrics, and ease of use
- Created a Chrome plugin as a side project that performs **real-time translation** of Deloitte's internal web pages using **AWS cloud service and a back-end in Node**
- Utilized technologies such as **Swift, Python, Flask, Azure CosmosDB, Mongo, AWS, and Node.js**

VISTAPRINT | FULL STACK SOFTWARE DEVELOPER

April 2019 - Dec 2019 | Tecumseh, ON

- Developed a **full-stack web application** as the sole developer, which included creating a **dashboard to manage employee records** at the plant
- **Improved the efficiency** of the labour record-keeping process **by 150%** and reduced the number of clicks to change a record from **10 to 3**
- Utilized technologies such as **PHP, JavaScript, jQuery, SQL Server, and Bootstrap**
